Apr. 8th 1887

I learn by the way of the Yorkshire Press that you have but two of those big copper cents issued in 1817. I have two of those cents, one I got while makeing a collection of cents, & the other I saved on learning that a man in Taunton Mass. had advertised that he would give twenty dollars for one for his private collection, but he got one before I did.

If enny one wants one bade enough to make it an object they can have one.
